

SALINI DESIGN EXPANDS OPERATION

Salini Design, Inc., well known around the country as specialists in the design and fabrication of sales and model centers for high-end residential developments, has expanded its operation to include a variety of interior design and marketing capabilities. The new division redefines Salini as a full-service design firm with the staff and infrastructure to create interiors for the full range of public spaces. Now, in addition to sales offices, display areas and model kitchens and baths, Salini will oversee and implement lobbies, clubhouse/recreation

facilities, spas and gyms, lounge/meeting, conference rooms, theater/media rooms, hallways and party rooms and other public spaces.

Since expanding the company's capabilities, owner Arturo Belkind noted that the response from clients, existing and new alike has been extremely positive.

"Over the years, our clients have always encouraged us to expand our services to include other areas of their developments, spurred by the enthusiasm with which our sales and model center have been received. Not only have they wanted to avail themselves of our creative talents in other areas, having all their interior design needs provided by the same company would facilitate the progress of the project. It reached a point when we realized that we would be doing our clients a great service by expanding our capabilities to satisfy a greater number of their design needs. We couldn't be more pleased with the higher level of satisfaction our clients now enjoy."

Within the past six months alone, Salini Design has been commissioned to create total environments for over a dozen new luxury developments throughout Florida and other parts of the country including The Port Condominium in Fort Lauderdale, and Midtown 4 in Miami.

Since relocating the company from Mexico to Florida in 1982, Salini has participated in the design and marketing of more than 300 communities. Their roster includes Jade, Midtown Miami, Everglades on the Bay, Latitude on the River, Solaris, 900 Biscayne, and 500 Brickell in Miami; The Parc at Turnberry Place in Aventura; Canyon Ranch, Aqua, and Murano Grande in Miami Beach; AquAzul, Palazzo, Europa, and Positano in Fort

Lauderdale; and The Slade and The Prado in West Palm Beach. In addition, the company's most recent design commissions include Orion in Houston, City Santa Fe in Mexico City, Midtown 4 in Miami and The Peninsula at St. Johns in Jacksonville.

Salini Design is located at 1845 NE 146th Street, North Miami. For information, phone (305) 949-9134 or visit www.salinidesign.com.
