**Skyline at Mary Brickell Village to Relocate
Executive Offices and Open New Sales Center**

Evangeline (Engie) Gouletas, Chairman and CEO, Skyline Equities Realty, announced that Skyline Equities Realty is relocating its executive offices. The development of the much-anticipated new sales center, which will be created by renowned designer Salini Design, is taking place in conjunction with the move. Both will be located at 800 Brickell Avenue, just steps away from what will be Skyline at Mary Brickell Village, the luxury residential component of Mary Brickell Village. The new Sales Center is slated to be unveiled in one month.

"The new sales center will show potential buyers the caliber of features and attention to detail given to the ultra-luxurious development and all 369-condominiums that will be Skyline at Mary Brickell Village. It will capture the essence of the building and each of the units—a unique blend of an old world Mediterranean feel with sleek contemporary design incorporated throughout," said Gouletas. "It will be truly spectacular and I am beyond excited to see the finished product."

According to Salini principal, Arturo Belkind, the sales and model center will be an unusual motif, blending sleek contemporary and Mediterranean genres.

"The tower will capture the essence of urban living. Our beautiful new sales center will give potential buyers the opportunity to take a glimpse into what it will be like to have a home in this wonderful new building. And, since the center will be located adjacent to the site, they will truly gain a sense of the exciting and energetic neighborhood in which they will reside," continued Gouletas.
